RE: Teaching – People in the Mission Standing Up

Supervisor: Karen Tenney, SLCLC

- M** • The people in the Mission have to live and breathe for the Mission while they are transforming and while they are going to work everyday. They have to be living and breathing for the Mission.
- A whole bunch of people have to rise up. Just rise up. Get on their feet. Just stand up into the light and live and breathe for the Mission and give in every way. Live to give. Live to give for God. Be consumed as the people who came to the Mission in the beginning were consumed. That's all that it's about.
 - Many people in the Mission are not doing that in the way that the people who came in the beginning are doing it.
