*Kalindi spoke a number of teachings on her January 2, 2010 birthday call. Those teachings are summarized in points below:*

**Leaders Holding Up The Mission**

- M • The congregation can know that it is the leaders who are hanging up the Mission. Kalindi has helped them and brought them up. They have seen the light, they know how to take the people and they know how to help them.
- The congregation can start to come towards the leaders and ask them to help them. They can say, "Kalindi gave it to you so please help me."
  - Kalindi is continuing to help the people.

**The Importance of a Live Master**

- If you don't have a live Master, you have all kinds of mimics going on and people look like they're doing something but they're not really getting it. It's Kalindi's (live master) job to make sure that everybody really gets it, and that we don't send any fraudulent masters or leaders out into the world. That is one reason why it has taken so long to get out to the world because everybody here needs to move out of the illusion and into the light. Only when it is real, it is real.
- Kalindi is focusing on that part of the Mission while everyone else is transforming and bringing the path out.
- You have to have a live Master that is coming from God, empowered by God, with the current day information that you need on how to break free of the illusion. It has nothing to do with the mind. You have to let go of everything.
- Kalindi is not talking about all of the material things, she is talking about that the false identity has to go and the love of God has to be invited in. "Lord, I only want

you. I only want you truly. So despite my separate will, please, take me any way because truly I only want your will.”

### **God is Coming After You**

- You guys got to come now. And, whether you come or not, God's coming after you. That's a fact.
- This is the year that we are coming to the world and it is the year of the awakenings and it is the year of the Seminar for the world.

### **How God is Working**

- It's the year that the teachings are coming out, and so many things are coming out and it is all of us who are going to do that.
- But it is not your little self that's going to do it. God is the one that is doing it all. You have to let go so that He can get in. Even if you let go or not, He's going to do it through you since you've already asked Him to use you for whatever. He is going to do it.
- If you are not letting go, it is only going to be harder.
- God is going to come after you and give you another thing and another thing He wants you to do. But it is not the little mind that can handle it. It is God's power and His energy that does it. You have to give up the little self enough that He inhabits about three-quarters of your mind. That is how you do 20 things at once.
- The congregation just has to shake off the resistance because it's going to start popping this way and that way.
- There might be three people who are doing something and they have to also help these other three over there and then all of a sudden another thing is happening. We are going to have so many things happening at once and it is not you, it's Him. You have to let Him in.
- Stop trying to think that you are doing anything. You are doing some things as long as you are hanging on, but remember the one phrase, “With God all things are possible.” That is a fact. That's the only fact that is true.
- It doesn't matter if you said, “I'm only going to do this or I'm going to do that,” because He is the Almighty, omniscient, omnipotent, He is just coming anyway and bonging into you and tell you what you have to do. You will have to do it because it is Him on top of you. It is not Kalindi, it is not the Mission, it is not the organization, it is Him directly.

- Kalindi is going to get out of the way enough when she goes into seclusion. Kalindi is going to break down the door that is blocking Him from getting to you. Because you haven't been cracking the illusion yourself that is keeping you small. It is just going to crack and then you will be running around like the Core and the people in the very beginning.
- Now all of you are going to get to experience Him first hand. He will tell you what to do, what is out in the Mission and give you all the information.
- In some of you He is going to put in big things and you will say, "Why is He bothering me?" And you will have to do something about it. That is how His Mission is going to go out - exponentially.
- So know Kalindi wants to introduce us to Him and His way. In the beginning there was Kalindi and His way. And Kalindi just was like a top. This is going to happen to you but not so intense, but similarly. Kalindi does not have to keep on saying how it has to be and spin everybody around in order to break them free. You are going to help each other break free. There are all of you who are graduating out of the Ashram who can help everyone. You have got to want it and you have got to go for it. You've got to ask for it and you've got to want it.

### **Live Master**

- Something that Gourasana said in the very beginning was that if people were willing to give Him a chance, that He would do everything and anything possible to help those people to break free and to come Home, even if everyone's hands were clasped together with the hands firmly in a fist.
- He said He would pry the fingers open one by one. Pry them open, no matter how stuck they are. He would pry them open one by one by one. It is very hard to get out of this material situation, the illusion.
- That's what He does, He uses whatever is here in the material world to crisscross relationships, breaking up, all of the things that go on with each other, jealousy, angry, all your egos smashing together – to crisscross it and move it, as part of getting these fingers up and let go.
- The live masters that will be here will also know exactly the malady of the disciple and they will see clearly what each person needs and what they need to do. The disciples will understand and they will go do it. It will be things like changing houses, moving to a different city or other things.
- There has to be enough change that by the time a group of people does something it will have like a domino effect. The people around that group of people will be

affected and so on. That is one big way He will work with everyone, just smacking us into each other.

- Many of you have come so far just by that kind of movement, just letting go, letting go, letting go. That kind of smashing things into each other just smashes all of the separate will. It starts by smashing the separate will and opening you up. That is what this body has been doing. This body gets the information directly from Him because of the omniscient, omnipotent, omnipresent.

### **Miracle of Love Staff**

- Some of the people in the congregation might think that they have to go to work and so they can't do as much as the people on staff do.
- Kalindi wants everyone to know that being on staff means you are on call 24/7. It is not a 9 to 5 job. Their transformation happens inside of it, very intensely. Being on staff is not like a regular job. It is way worse. It is intense and it pushes them up against every wall that has to be faced. They do not have any time to chill out, none.
- These people are responsible to hold everything together in the Mission. So the people in the congregation have to stop thinking, "Well, I have to work and so I can't really move that fast." That is a fallacy that needs to stop.
- People should go to work, come home, do their service, do their meditation, do so many things that God is asking them to do. The staff and the working people have to all become one now, because there is no difference, except the staff is on call 24/7 and expected to move and transform at a rapid, rapid speed. If the staff would be doing that, they wouldn't be able to get along together. They have to be one mind.
- Kalindi wants whatever illusion is between the working class and people on staff gone. It doesn't matter if you have a job or not, you still have to do it.
- Gourasana said that would be the hardest thing – working while you were transforming, and so it is. It is also like that the people on staff.
- If anyone thinks that they are going to stop working, Kalindi hasn't stopped yet.
- When people hear that Kalindi is resting, that means she is sitting in the chair being just filled with more power until she have to come out again. When Kalindi is resting is when she is making lectures.

### **God is Giving You All the Information**

- Kalindi has just recently discovered how severe it is that when there needs to be power for the Mission to do something or go a certain way or shift or whatever there

needs to be, He just puts the power in her body. Whatever needs to be said just comes through with a power. He has the whole strategy, and so He already has the answers and He's going to use some of you like that once you become His friend and open up to Him.

- Some day you will figure out that it is Him giving it. It's not you. You have got to meditate and open up enough to hear Him and He might have to club you over the head, whatever He has to do, keep you up all night, or give you a bad headache. You might not know why you have such a bad headache, your spine might hurt, or your stomach hurts so bad. The whole time you know there's something trying to come in, but you resist it instead of just meditating until Gourasana is coming, His energy's coming. Then you can sit down, and listen to Him.
- Everybody needs to start to do that because we are done with everybody's separate will and separate desire. WE have a mission to do. We are the ones that have come to bring this Mission to the world. We are way over cooked.
- Go tell the people that the love of God is possible. If they go to one of these seminars, you won't believe, you absolutely won't believe, it changes you 100 percent. Body, mind, heart, and spirit. There's masters and whatever, it's just like, come on, let the rain fall. So, it's all going to open up and it's all going to be much easier because Gourasana is going to make sure of it.

### **Give 50% of Your Brain to God**

- God is going to get into this world because two to three hundred people are going to go now and move, not thinking anymore about what we might do. People are going to break free on the way. God is going to give you everything you need to succeed. God is the one that's always with you. He is your best friend. He's just waiting right there, waiting for you, to turn to Him and say, God, I don't understand but I know I love you and I know you love me and I know the world has to have You so please, "I'm opening up 50% of my brain for Your use only. You can put anything You want into that part and I will act upon what You say. I just need to hear it. The other 50% I need to use for my material world activities."
- That is something that you all need to meditate on and figure out how to get there. If someone calls you up and says, "Hey, I am starting this and this and this and I thought about you and you really need to help, I really know God told me you," and then that 50% of your brain is what needs to listen.
- You will see that it is very clear and you will know when you are supposed to do something.

- The other side of your brain is going to figure out how to deal with your material life. This other part has to open itself up to God's use. Absolutely. Nothing less than that. Even after you go through your awakening, it will be like that. It will end up like that. Of course you want to give the whole part but you have your material world that you have to take care of.
- Someday if you trust God all the way to run your material life, He'll do that too. If you trust Him enough. He knows how to do it better than anyone
- When you are working with your material mind, you should try to let God in there a little. Talk to Him in meditation because He'll give you the answers. He's got the answers. You don't have to fret. You don't have to fret about anything. If He's already in half of your brain, it's really easy to hear him in meditation and just guide you through your life without much anxiety at all.
