

Words of Explanation about Those in Leadership

For Long-Term Sourcing Notebook

The Center of The Golden One is a spiritual path to become freer and freer and closer and closer to God each day. For those desiring to break the cycle of birth and death, there is a Path to Ultimate Freedom offered by spiritual master Kalindi G. to assist you in that endeavor.

The Come Into the Light Ashram brings about an awakening into the light and into the presence of God in a very powerful way. The people come into the light and love and they learn how to stay in the light. Their transformation will continue. They must get to the point where they can stay in the light all the time. And then they have to make the decision to walk straight Home, which is the journey between them and God. The Ashram breaks them from the bondage of the illusion so they can come Home. You can say they have had a massive awakening and come to know God and the Light and the workings of the illusion.

When they get to the point they are staying in the light all of the time and the ego is not around them and the illusion is not pulling on them, they are to be called awakened beings. As far as anyone having the title of master: that is a great title and only can happen when someone is carrying the presence of God all the time.
