

## Overview of Kalindi's Sourcing

---

*The following points were taken from January 11, 2010 recordings for the Forward Thinking Group. These points provide a context for all of the information spoken by Kalindi from January to March 2010.*

### **This Mission Built on God's World**

- This mission is built on God's world, not the material world. We can't build this Mission on the material world.
- This Mission is not run by the materials ways. It's run by God's ways and this is how it is going to work.

### **Current State of The Mission**

- This Mission is in trouble. We don't need anyone's mindfucking. We need to listen now. We have from now until Germany to figure it all out.
- He is here, because certain questions will come up. Once we know what He wants then you guys can ask the questions to this body. And the answers will just come, come come.
- He is getting intense like this to come through.
- He is here like that because of the many things in the Mission that are off and that are trying to take the Mission in the wrong way, because we are almost going on the right way.
- Right now there is so much separate will going on. Everybody is going in all different directions and there is a lot of unharmony. We want to bring it together. First you give up the life the way you want it and secondly you live it the way God wants it. That is what we are trying to do now.
- The Mission is going nowhere until we listen.

### **The Information is Coming**

- We don't have to figure it out. The information will all come in.
- He doesn't bring in all the details, but He brings in what we need to do. Then all the details will fall into place. That's how the business meetings should be. If they are not like that then we are talking about the wrong subject.

### **Importance of Meetings with Kalindi**

- This is the big turnover, when the disciples take it from the master, all of it.
- Tell the Forward Thinking Group, the Business Team and everyone else that this is no shit now.
- This is the Lord wanting to speak the last speaking that is going to be the turnover of everything. And this is the time when all the masters turn it over. And then what it becomes it becomes.
- There has to be so much humility with the Forward Thinking group. This is the Lord and this is the Lord speaking. This is no shit, because this is when it becomes corrupt. Right now. This is when it becomes corrupt.

### **Being Available to Kalindi in January**

- This month of January the top leaders have to be ready for any meeting whatever time it is, if it is in the middle of the night, whatever.
- This month of January is Me giving all of the sourcing for all of the future. No shit. The Robed One is speaking.

### **Forward Thinking Group**

- The Forward Thinking Group should not be meeting until the meetings with Kalindi are over.
- They should continue to work on what they are working on, but there is a pause right now.
- Don't talk about the Seminars or money. Because they don't know what is happening.
- It is going to be God that is coming in.
- The group should play the talk "God is All There is," at every meeting.
- The Forward Thinking Group has to do their work and pray like crazy to God, "Please I want it to be you. Take this 50% of my mind. If the information comes in from You then I can think about it."

### **Direction for Maha**

- Maha has to be ready to be at every meeting and she cannot leave early. When she is in the presence of Kalindi she cannot leave early.
