

## Teachings re: Being a Spiritual Master

---

*The following are bullet points from a recording Kalindi made for The Lady on February 21, 2010 about what it means to be a Master. These bullets are all direct quotes of Kalindi and have not been edited. There was further information to The Lady about who to work with and bring up into Masterhood. That information is in the transcript and is not included in this document.*

- Take the name of master, means sacrifice and sacrifice and sacrifice and sacrifice and sacrifice and sacrifice and sacrifice and sacrifice for the people. It's nothing about the self. Not even the big self. Just God. Just God. So before you can put your name, Spiritual Master for the World, you have to be deciding if you're going to be up to that name and what it means.
- Anyone to be taking the name of Master for the World or Spiritual Master, first of all it has to be the master that's coming through. It can't be the self. It's got to be the master. And no one can be claiming that or authorized as such unless they're ready to take on that sacrifice of living in a glass house. And living in the way that you're ready to let everyone see how you live.
- One sacrifice after another after another that you don't live for the self – either a small self or the big self – that it is only God that you live for. When you're ready to make that statement and live that life, then you can start to look and see.
- I can't put anybody out there with the name master unless it's really true. Unless that person can hold that title. And so the people – it's fine that they're just pre-masters. They can be a pre-master for long time. And the people will get help from them in any way that they are. But if they want to go all the way, then they have to pray, "I want to go all the way. All the way and nothing but God." They have to pray like that. And they have to want that. They have to want that.
- The absolute annihilation of anything but God.
