Location of Mtg. or Conversation: Denver

RE: Centers worldwide change

- M •** Four worldwide Centers have to happen before Kalindi goes (no longer seven Centers). They need to be full blown Centers with many masters or this world is going to be the devils domain. Dark, dark, dark, with no light. If we don't have at least four Centers it will not get in.
- We are late. It has to go faster. It is not even about people's personal freedom. It is about getting this in to the world. We are really behind.
- The four Centers are Denver including all of the Colorado satellites, Amsterdam including all of Europe, Australia, and somewhere in the east US. Maybe 50 miles N.W. of Evanston because Evanston will be taken by the earth changes.
- We may get in a fifth Center in San Diego after the earth changes happen.
- I am not going to focus on Canada unless they do something.
