RE: Teaching – What is His Will

Supervisor: Karen Tenney, SLCLC

- M •** Everybody needs to find out, “What is His will? What does God want you to do?” It may change and change and change. But you have to go for the highest will that He wants you to do.

From Kalindi:

“As far as the Mission, you can find out from your leaders and from the masters what His will for you is in this Mission. That’s a very key thing. Once you find it, then you pop into it, then you start going, going and going. It just starts taking you. Then His will may change, but it keeps going towards the light. You just keep feeling more and more of Gourasana’s energy coming into you and just standing you up, up, up, up, up, into the light, into the light; and just giving, giving, giving. Everything becomes very clear.”
