

Living God-Consciousness – 30-Day+ Transformative Experience

Reference: Kalindi's Anti-Chaos Dress Code

Introduction

Choose limited colors of clothing to calm down and simplify your clothes for a period of time if you like, by following the intent of Kalindi's Anti-Chaos Dress Code. When Kalindi brought this in, it also helped her disciples surrender a part of their ego or separate will to be limited in their choices of color. It is completely optional and is only given to you so you have this option -- now or for sometime in the future when you feel like it is something you want to do.

Principles

- Choose either White or Cream as a base color -- not both.
- Everyone has Black as another base color.
- Choose two additional colors. Pick colors that go well together. Wearing two colors should be accomplished through shirts, sweaters, scarves, blouses, etc.
- Pants, slacks, jeans and skirts should only be black, white or cream.
- You can add blue jeans.
- You can use variations of your two colors. For example, if you have light blue as one of your colors, you can use variations of light blue. You would not have light blue be your color and have a variation of it be dark blue.
- Don't wear prints or patterns: only solid colors.
- When a color doesn't feel right anymore, you can change it. Keep the base colors of black and white/cream, just change your two other chosen color(s) when you feel it/they no longer suit you.
- Keep working at this for years; this system is going to get you started. You will have to do this as part of shedding the illusion and constantly coming into the new feeling you have about yourself.
- Once you get your clothes together (as you did your kitchen), it is "far-out." (This is one of Kalindi's favorite expressions.)
