

Purity is the Force Excerpts

December 29, 2009

The following excerpts were taken from a transcript of a meeting Kalindi had with a group of people at the Ashram house in Denver.

Purity is the Force

- M** • The biggest thing that this group of people who attended the meeting need to be sure happens is that this path of Gourasana's remains 100% pure exactly how He brought it in, and that it passes down four times completely pure – no politics, no fighting amongst the leaders, the masters together and the one purpose of breaking the cycle of birth and death – that that remains open and pure. That is the one job of this group of people.
- This brand new Incarnation, the Golden One, has brought in the precious, precious pure truth for this time period, lasting two thousand years. It is our job to see to it that it is brought in and set in place in a simple way so that it can be passed on and on and on.
 - We cannot water it down and we cannot have any ego, g.b. running this Mission in any leadership form ever. Kalindi is saying this is the group of people that are going to see to it that what is said above is going to be the basis of our organization. These are going to see to it that the Lord's desire and what Kalindi is saying comes true.
 - So for these people, there is no more self-life, whether you've given up your separate will or not. You are going to give it up now because you have something to do for God and for this world. If it doesn't happen this world will have no light. There will be little things here and there but the Incarnation with the purity of the guidance and the light and the knowledge and the power and the masters won't happen.
 - It has never happened before. In every religion, once the Incarnation leaves, the mission itself becomes dark right away because they want to grow the mission. So

they change the truth in order that it can be more palatable for the world at large. They lose the purity right away because they need to make money, they need to have a big congregation, and so they lose the pure truth. We cannot do that. We have to be who we are as we were born into, and as who we truly are.

- Everyone in this group needs to start to breathe in and out for the people, for the people's freedom, to increase this group of people. You all have the ability to bring in that purity into your own self. You already are leaders in this Mission.
- This is very serious because we are getting older and people aren't moving as fast as they should be. But now we have a few people that can just say, "Okay, I'm standing up and I'm going to speak, and I'm going to say it like it is, and I'm going to just guide the people." But you have to be pure without any ego coming out. Kalindi is begging this group to do it now and for this Mission to work together as we go forward in many directions. We are together and there is a constant working on the ego. It is the ego and the g.b. that has to die for anyone to be a leader.
- Just let this in and, "Who am I to be sitting in this room right now, and am I going to – is this me, is this true?" Kalindi is asking this group to go beyond what you think you can do and jump into Gourasana and forget about whatever your separate will is. Give up your life. Give it up because of the people. There are so many people that are waiting and want it. Kalindi is trying to set the course for the rest of the duration of the Mission for two thousand years. If we are going to make it, then this group right here has to become the ones that are the example and the ones that look around and the ones that are just getting the people on the floor. We have to create the way it is all going to be: who is what leader, who is what job, and together make it happen because it can so easily just screw itself because of the g.b.
- Kalindi is very concerned about our future and what we need to do right now, how we need to set everything up so everyone benefits spiritually in the time and pace that everyone is supposed to be moving, and that we never lose sight of breaking the cycle of birth and death, The Path to Ultimate Freedom, Freer and Freer.

Summary

M • Purity is the force. For example, if the Mission starts to do something and money is the reason, survival is reason, and we go do it but it makes the Mission become contaminated, then we have done a very wrong thing. If we have to give an inch of our purity in order to make money or have people come, then we have done a very wrong thing. It will throw us off of our pure road. We are here to serve Gourasana and His Mission and the express purpose. In that way the love will come to the world through the express purpose. So many things will happen. So we're ready to start. We're going to start now.
