# Talk for Forward Thinking Group and Business Team 1

*spoken by Kalindi on January 14, 2010*

When you have your business meetings, you can't be there sitting there thinking and stressing out, trying to figure something out. That is not the way to do it at all.

First of all, you have a list in front of you from your RE's that you've been building up. You have those RE's – take the most urgent things that you think and put them on a list and bring your list to the meeting. And don't be honed in on, "There's just one thing that has to be talked about that you think is so important." No. You write down maybe the five most important things on your list that have to get done for the Mission. And maybe the five questions that you have in order that you can move on and do your service. And then you come and you discuss the most urgent things that *the Mission* needs to have discussed, so that the Mission can move on.

Then you sit there and if somebody knows something that urgently needs to be discussed, then bring it up. And then everyone will say, "Well, no, no, no. We don't need to talk about that right now. Somebody else might be able just to talk to you later; so do it later with the other person." And what you need to do then is just sit there quietly and breathe in and breathe out. For five minutes: breathe in, breathe out, after you are all calm<sup>1</sup>.

---

<sup>1</sup> At this point, Kalindi instructs people: "Play the tape that I made for you. Plus play the Let Go, Give up, Surrender, Listen, Say Yes, and Act. There's two parts to that. Play it after you're all calm." Kalindi is referring to 3 talks to play. The first one is *God Is All There Is*. The other two are: *It is a Simple Path After All*, and *Listen, Say Yes, and Act*.

And then remember the Lord in your heart and offer your love to Him. And go into a deeper state where you are connected to Him. And now you're ready to say what you need to say. Receive what you need to receive and start going.

If you're thinking, thinking, thinking, thinking, thinking, thinking, thinking, thinking and driving yourself crazy thinking, then that's not what He wants to talk about. And you just need to sit there quietly and He's going to come into somebody and say what needs to be talked about.

And once that comes up, what needs to be talked about, it's going to just go and you guys are just going to be a million miles a minute talking about it, discussing it, thinking about it, figuring it out, how to plan it, what to do, da da da da da da. And every single thing that you discover that needs to be talked about, He's right there and "boom," just going to all come out, because He's sitting inside of all of your brains with all the information. But you got to find out what is the most urgent thing we need to think about?

And you know, you guys have to be doing your meetings like that because we don't have time for you to do it from your own mind. You have to do it – God has to give every answer and then you have to use your mind to do what God's asking you to do. That's when the material world comes in. We create from God's intent. And we use our minds to do *God's* will.

So now we just have to learn how to sit there, and if you're ever having meetings where you're just going on and on and on and on and on and on, it's just all mind stuff, say, "Okay, that's enough for today. We have to just meet another day when we are certain of what we need to talk about. And here's the list of what it is that we need to do this year. So we need to meet a couple times a week, not once. And we need to have that be powerful meetings, that things can go into action every time we're done with the meeting – something needs to go into action."

No waiting around for all these meetings and this and that. Make a decision on things when you meet and then move it forward. And you'll have the nice big list of everything that we have to accomplish this year and it's going to be no easy task. You're going to have to get everybody in the Mission to help.

But you're going to do it God's way. And that's why I'm teaching you how to do it God's way. And then this Mission is just going to fly.

At the end of the meeting you play the song: *(singing) "Don't worry about a thing, because every little thing is going to be okay. God's holding you. He's here. His arms are around you. They're around everyone. It's your job just to open and receive Him. Put your arms out, invite Him to come and take care of you. Don't depend on the material world. It doesn't work. It doesn't work. Only God works. God's way in all ways. Once you're with Him, then you can really groove and groove and groove and grow and grow and grow and grow His Mission.*

*So pay attention to everything that I tell you, and start to make a procedure book. When I say: do this, do this, do this, don't do this, don't do this, don't do this, I expect that you'd get a procedure book going of every single thing that I'm saying to you, because I won't be able to say it again. You must hear me. I'm teaching you how to do it all."*

There can be nobody's separate will and nobody's manipulation, none, none, none. It's going to be God's committee. Forward Thinking Group: God's committee. Forward Thinking Group.

So I said a lot right now, so you better take this tape and you better sit down and at your next meeting and write down all the points that I told you. It must be like this. We have to start it like this, so it will stay like this for the 2000 years. Otherwise it's just going to be cats and dogs fighting and the Mission, it will just shrivel up after the 2<sup>nd</sup> Generation goes, it'll just be a mess.

So you all have a huge responsibility to the purity of the Lord's Mission. For the purity of the Love of God to get into this place, it must be pure love of God. You all have a huge, huge job to do for the rest of your life. And you have to each train a person – a destiny person to take over your job. So as soon as you find that person, take them in your wings, live them in your house, live them in your room, and just be with them and take them. Start thinking about 2000 years and who's going to take your place.
